

Technical Specification

L28-W2

Product Name:	L28-W2
Category:	Linear LED Module
Description:	Zhaga compliant 280mm linear LED Module

	Features:	High performance LEDs from Osram	Applications:	Fluorescent Replacement	
		Zhaga compliant			
		Power Consumption = 7.3 W/module (DC) @ 350mA			
		Lumen Output = 1185 lumens/module @ 350mA			
		L80 > 50,000 hours at Tc = 80°Celsius			
		2059 series Push in Wago™ connectors			
		Available in Cool, Natural and Warm White			
		Locally designed and manufactured			
		CRI 90 and custom CCTs available on request			

Dimensions			
			
Product Code	Width (mm)	Length (mm)	Thickness (mm)
L28-W2	20	280	4.4

Technical Specification

L28-W2

Electrical Characteristics						
Parameter	Value					Unit
Module Operating Voltage	21					V DC
Module Drive Current	150	250	350	400	500	mA
LED Drive Current	50	83	116	133	166	mA
DC Power / Module	3.2	5.3	7.3	8.4	10.5	W

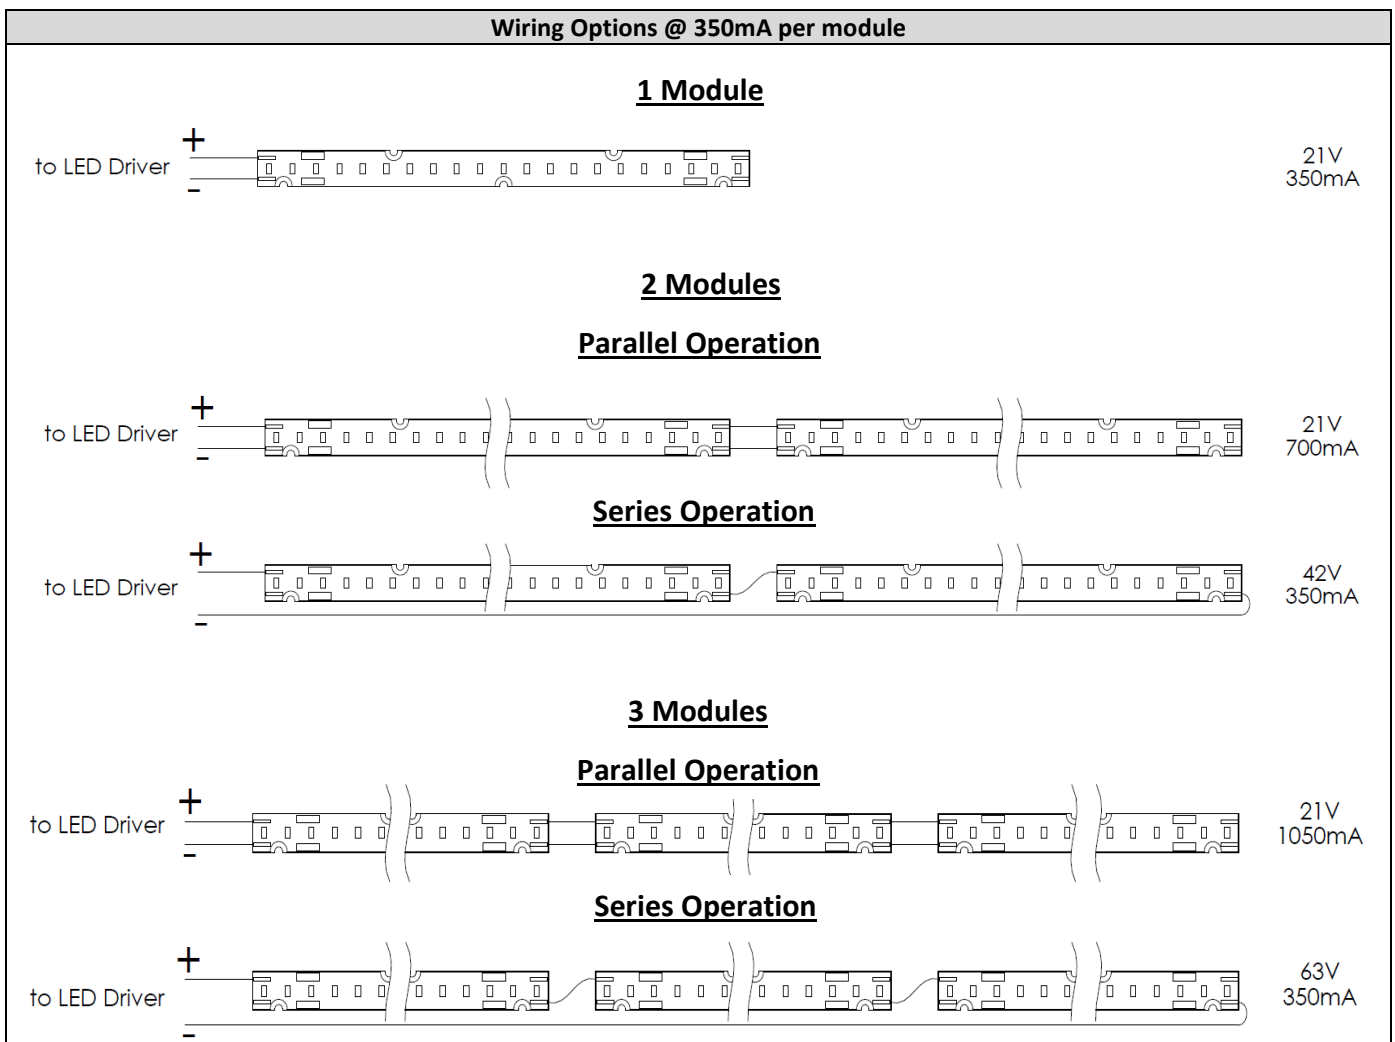

Optical Characteristics										
Product Code	LED Colour		CCT (K)	Module Luminous Flux (lm)*					Angle (°)	Min CRI
				150mA	250mA	350mA	400mA	500mA		
L28-W2-W	<input type="checkbox"/>	W	6000	540	871	1185	1340	1631	120	80
L28-W2-NW	<input type="checkbox"/>	NW	4000							
L28-W2-WW	<input type="checkbox"/>	WW	3000							

* Values accurate to within 10%

W = Cool White

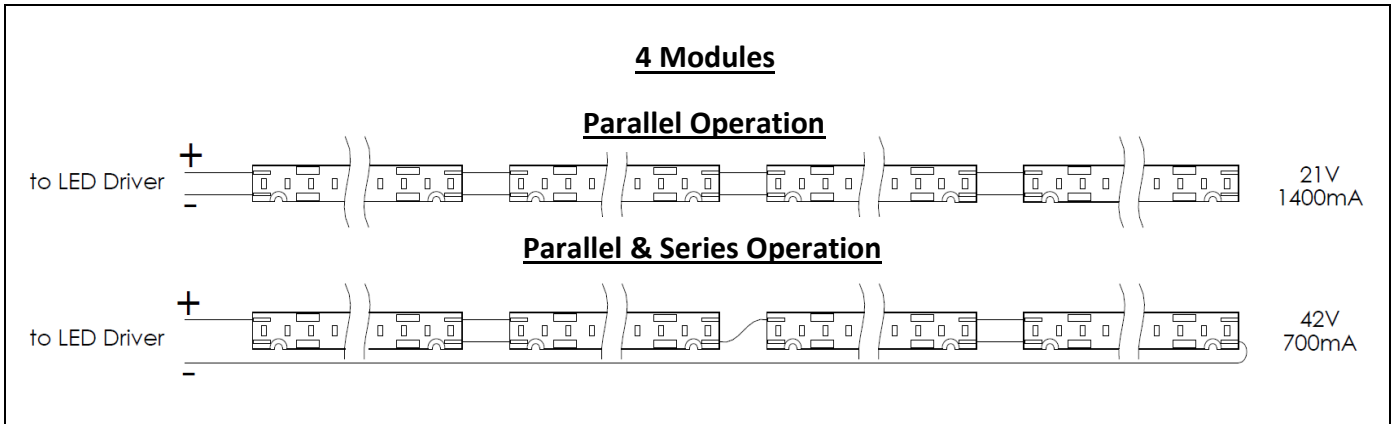

NW = Natural White

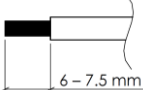

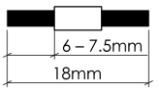

WW = Warm White
